PROFESSIONAL SUMMARY

Computer Science graduate, Software & Mobile App Developer, Data Analyst, and Technical Instructor with experience building web applications, analyzing data, and delivering technology training. Skilled in Python, SQL, Power BI, Flutter, React Native, PHP, and modern web technologies.

Proven ability to develop real-world software solutions, analyze datasets for insights, support administrative operations, and train students in programming and data analytics. Experienced working both independently and within teams, in on-site and remote environments.

Open to roles in **Software Development, Data Analysis, IT Support, Technical Instruction, Administrative Support, and Remote Technology Positions.**

CORE TECHNICAL SKILLS

Data Analysis & Business Intelligence

- Microsoft Excel (Advanced, Pivot Tables)
- Power BI (Dashboards & Reporting)
- SQL (PostgreSQL, MySQL)
- Data Cleaning & Data Visualization
- Analytical Reporting & Insights

Programming & Data Science

- Python
- Pandas, NumPy
- Matplotlib, Seaborn
- Exploratory Data Analysis
- Machine Learning Fundamentals

Web, Mobile & Software Development

- Flutter & Dart (Mobile Apps)
- React Native
- HTML, CSS, JavaScript
- PHP, MySQL, Bootstrap
- Node.js & Express (Basic)
- Flask (Basic)
- REST API Integration
- XAMPP (Apache, MySQL, PHP)

- Android Studio
- Firebase (Authentication, Firestore, Realtime Database)

Design & Productivity Tools

- Microsoft Word, Excel, PowerPoint
- Google Meet, Zoom
- Canva
- Figma
- CorelDRAW (Basic)

Professional Skills

- Problem Solving
- Communication
- Leadership & Mentoring
- Team Collaboration
- Time Management
- Attention to Detail

PROFESSIONAL EXPERIENCE

NYSC Corps Member – Finance & Salary Unit

Federal Ministry of Innovation, Science and Technology (FMIST), Abuja
2025 – 2026

- Served in the Finance Department during the National Youth Service Corps (NYSC).
- Managed incoming and outgoing staff files and maintained accurate documentation.
- Verified staff salary records and reviewed payslips for accuracy.
- Generated and printed official payslips for ministry staff.
- Maintained confidential financial and personnel records.
- Assisted staff with payroll-related inquiries and administrative tasks.
- Supported daily office operations and record management processes.

Software Developer & Tech Instructor

WebPryme — Remote
2022 – 2026

- Developed web and mobile applications for clients using modern technologies.
- Built cross-platform mobile apps using Flutter and React Native.
- Designed and implemented responsive web applications using HTML, CSS, JavaScript, PHP, and MySQL.
- Conducted online training in Web Development and Data Analysis via Google Meet.
- Mentored learners through practical coding projects and technical exercises.
- Designed UI/UX interfaces using Figma.
- Created digital graphics and marketing materials using Canva.
- Supported digital marketing campaigns for clients.
- Improved system performance through debugging and code optimization.

Data Analyst (Contract)

One StepAhead Consulting Company
2025 – 2026

- Analyzed business and operational datasets to support strategic decision-making.
- Cleaned and structured data using Excel and SQL.
- Built Power BI dashboards to visualize business performance.
- Delivered analytical reports highlighting insights and trends.

Volunteer Data Analytics Coach

Idealnovate Africa
2024 – 2025

- Mentored students in Excel, SQL, Power BI, and Python analytics.
- Assisted learners in building real-world data projects.
- Reviewed dashboards and provided technical feedback.

Python Programming Instructor

EL Academy, Abuja
2023

- Taught Python programming fundamentals to beginners.
- Guided students through coding exercises and debugging.
- Simplified programming logic and data concepts for learners.

Software Director

Nigeria Association of Computing Students (NACOS)

Federal University of Kashere

2023 – 2024

- Led software development initiatives within the association.
- Mentored students on programming and software development practices.
- Coordinated technology programs and student technical activities.

Head of Media & Publicity

National Association of Idoma Students Worldwide

2024 – 2025

- Managed communications and publicity strategies.
- Coordinated media outreach and engagement initiatives.

Office Assistant

Safety Vision Driving School, Abuja

2017 – 2018

- Managed student registration and records.
- Updated student data on organizational systems.
- Generated driving certificates via the Federal Road Safety portal.
- Responded to inquiries and resolved customer complaints.

Office Supervisor / Administrative Assistant

P & M Laundry / Barbing Salon

2018 – 2019

- Managed financial records and daily transactions.
- Deposited company earnings and maintained reports.
- Supervised operations and handled customer issues.

SELECTED TECHNICAL PROJECTS

Predicting Restaurant Ratings Using Machine Learning

[Read on Medium FROM DATA TO DINING MACHINE LEARNING-BASED RESTAURANT RATING PREDICTION | by Samuel Ochoche Peter | Medium](#)

- Built machine learning models including Ridge, Random Forest, and Gradient Boosting.
- Evaluated model performance using RMSE, MAE, and R².
- Published analysis and findings on Medium.

Online Vehicle Management System (PHP, MySQL – XAMPP)

Tools: HTML, CSS, BOOTSRAP, JAVASCRIPT, PHP, MySQL – XAMPP

[View on GitHub samuelochochepeter \(SAMUEL OCHOCHÉ PETER\)](#)

- Built a dashboard for tracking vehicles, scheduling maintenance, and booking.
- Added admin filters and user management functions.

Real Estate Management System

Tools: HTML, CSS, BOOTSRAP, JAVASCRIPT, PHP, MySQL – XAMPP

[samuelochochepeter/real-estate-system: A real estate web application prototype that allows users to search, view, and manage property listings online.](#)

- Developed a property management platform where agents and customers communicate.
- Enabled property browsing, enquiries, and direct discussions.
- Built an administrative dashboard for property management.

Smart Hospital Locator System

Tools: HTML, CSS, BOOTSRAP, JAVASCRIPT, PHP, MySQL – XAMPP

[samuelochochepeter/Smart_Hospital_Locator_System](#): A web-based tool that allows users to locate nearby hospitals based on location and available facilities

- Developed a system that identifies the nearest hospitals during emergencies.
- Implemented location-based search and hospital details display.

Online Supermarket Management System

- Built a full supermarket management platform using PHP and MySQL.
- Implemented inventory tracking, transaction management, and profit/loss monitoring.
- Designed an admin dashboard for product management and reporting.

Election Outlier Detection & Geospatial Analysis

[samuelochochepeter/Election_Outlier_Detection_-_Geospatial_Analysis-Kaduna_State](#)

Tools: Python, SQL, Power BI

- Analyzed election data to detect abnormal voting patterns.
- Applied statistical outlier detection techniques.
- Built Power BI dashboards visualizing voting trends and party performance.

HNG Ride Data Analysis

[samuelochochepeter/HNG-RIDE-DATA-ANALYSIS](#)

Tools: PostgreSQL, SQL

- Analyzed ride-sharing data to evaluate rider behavior and revenue trends.
- Identified longest rides, customer retention patterns, and payment preferences.
- Generated insights supporting operational and strategic decisions.

Palm Oil Profitability Analysis in Nigeria

Tools: Python, SQL, Power BI

- Developed profitability models for palm oil investments.
- Analyzed ROI, payback period, and break-even plantation size.
- Built dashboards visualizing investment opportunities across states.

EDUCATION

B.Sc. Computer Science

Federal University of Kashere, Gombe State. Nigeria

CERTIFICATIONS

- Certified Professional Diploma in Data Analysis — Ideainnovate Africa (2025)
- Data Analysis with Python — FreeCodeCamp (2025)
- Level 5 Data Science (NSQ) — CPN (2025)
- Web Development — Federal Government Empowerment Program (2025)
- Agile Project Management — HP (2024)
- Programming in Python — Meta (2023)
- Machine Learning with Python — FreeCodeCamp (2023)
- Python Programming — EL Academy (2023)
- Front-End Development — Coursera (2023)
- Back-End Development — Coursera (2023)
- Desktop Publishing — Communication Network Ltd (2019)
- Digital Marketing — Life Servers Ambassadors International (2019)

ADDITIONAL INFORMATION

- Open to Software Development, Data Analysis, IT Support, Administrative, and Remote roles.
- Available for Remote, Hybrid, and on-site opportunities.
- Strong interest in analytics, technology innovation, and problem solving.
